### EVERGREENS A SPECIALTY

---

Shade Trees, Ornamental Trees,  
Shrubbery, Hedge, Roses,  
Climbing Vines

Hardy Perennials, Rock Plants,  
Fruit Trees, Berries, Grapes

# GREETING

To both our old and new customers, we desire to say that we have been serving the people of this section of the country for more than fifty years, since 1880.

Our purpose has been to furnish good stock at reasonable prices, and thus, with our efforts to please, secure satisfied customers.

In these days of good roads and quick automobile service, why not avail yourself of the opportunity of driving to the Nursery, and see and secure the kinds, grade or sized stock you need.

In our Price List, we quote on good, strong, heavy, well-developed stock, not the sizes such as you find in mail order catalogs. However, if this is the grade you want, we can furnish many items of small size plants or trees, at prices in accord.

Inasmuch as Spring is always a busy season, make your plans early, send your order in and let us book it for you. If you need any information in regard to stock or prices, or if we can be of service in any way, write or call at the Nursery.

---

## Price Corrections for Spring, 1938

From general quotations from Nurseries all over the country, we would be warranted in making a general step-up in prices. However, with a few exceptions which we designate below, prices in our List for Spring, 1937, will also stand for Spring 1938.

1. In Shade Trees, items marked "X" are higher. Prices given on application.

2. Under Shrubs, those marked "X" are scarce and higher on the market, and will be furnished only in limited number with other varieties.

3. In Evergreens, those marked "X" are about 25c higher per tree.

4. In Privet Hedge:

12 to 18 in. 2 year, . . . 8c, per 100 \$7.50

18 to 24 in. 2 year . . . 10c, per 100 9.00

2½ to 3½ ft. 3 yr. . . . 12c, per 100 10.00

5. In Mahonia 12 to 15 in., B. & B. . . 1.00

" 15 to 18 in., " . . . 1.50

THE LAKETON NURSERIES

# FOREWORD

---

The following listed stock is all first class of the grade named. In case of your ordering any item in a grade we are sold out on, we reserve the right to give you the next higher or lower grade. In case we are entirely sold out on any item you may order, we would be glad to select some other variety of equal merit, color and season. Our judgment of what is best is at your command

Let us book your order and we will hold until you come for it, or until time to ship.

Orders desired shipped, will be packed F. O. B — except evergreens, which must be boxed, and will be boxed at a reasonable cost.

We have a fine large supply in all the standard varieties in Evergreens. You should see them to appreciate them.

We have been in the business for fifty-six years. Our customers are our best advertisers. We solicit your business.

NOTE—If in need of stock in larger quantities than are named in list, write for prices and we will make you special quotations.

NOTE—We allow 5 at 10 rate and 50 at 100 rate.

NOTE—In growing large quantities of stock there is sometimes stock in off grades, either smaller or larger than herein quoted. If interested in such grades, ask for prices.

OUR GUARANTEE—All goods are guaranteed to reach you in good condition; mistakes, if made, will be promptly rectified. Accept shipment, examine and count on receipt and notify us at once should there be any errors, and the carrier as well, if there is any damaged stock. This guarantee is not good unless above requirements are complied with. We do not guarantee continued growth. Remember, a tree, shrub, or plant is a living organism, as much as a cow, horse, or man. It breathes, drinks and feeds, and is liable to attacks.

TERMS—Cash, or if sent by express, C. O. D. on delivery.

HOW TO SEND MONEY—Remittances may be made by postal or express Money Order, Draft, or Check. If cash is sent use registered letter. Postage stamps accepted only in payment of orders less than one dollar (1c and 2c stamps preferred)

FOR PLANTS ORDERED BY PARCEL POST—On Strawberry, add 12c per 100; Raspberry, add 15c per 25; Perennial and Rock Plants, add 10c per 12.

# Complete Landscaping Service

---

Landscaping should have a two-fold object—beauty and utility. The plan must provide for pleasing views, beautiful foliage, bright and gay flowers—the whole making a harmonious picture.

It must also provide for convenient walks and drives, ease of handling, and not the least important, economy of space.

No matter how attractive your house may be, it can be made moreso to passersby, and to yourself, by a well-planned program of planting. In other words—

## **"IT'S NOT A HOME 'TILL IT'S PLANTED"**

Knowing that a great many are at a loss to know "What to plant and where to plant it," we offer our Landscape Service to all our customers.

If interested, call or write us, we will call and see you, take measurements of your lot and buildings, and draw you a plan for planting it.

If you accept our plan, we will sell you the stock and you may plant it yourself, or we will do the planting for you.

Please remember that April, May and October, are busy months with us, and the earlier you call us, the more time and study we can give to your planting sketch.

---

## **SUGGESTIONS**

The Front Lawn should be open and inviting. For the utmost in attractiveness, plan to have an open stretch of well-kept lawn framed by plantings of evergreens and shrubbery in pleasing borders and curves along the lot line. Hardy flowers can also add color and beauty.

The Rear Lawn can be made into an "out-door living room" where you will want to spend many restful hours, if it is provided with proper shade and the correct varieties of flowers and shrubs.

Hardy Perennials and Rock Plants will be a source of joy and satisfaction all through Spring and Summer, as you admire the many changes in shapes, hues and colors, and the gorgeous creations of nature. Fruit producing trees, grapes, and berries can also be included in your planting plans without detracting in the least from the beauty and harmony of the scheme as a whole.

# FRUIT TREES

## APPLES

11-16 inch and up, 75c each.

**EARLY VARIETIES**—Early Transparent, Red Astrachan.

**SUMMER & FALL**—Duchess of Oldenburg, Maiden Blush, Wealthy, and Hyslop Crab.

Wegelia, var. leaf, 18 to 24 in. 40c; 2 to 3 feet -----	.50

# EVERGREENS

Evergreens typify permanency. They defy time and the elements. In the bleak Northern winters the Evergreen stands out in the landscape, fresh and green and full of cheer.

Plant Evergreens for all year round beauty. Use them for foundation plantings, windbreaks, or in the open as specimen ornamentals.

An Evergreen must not have its roots exposed to the sun or wind not even a minute. For this reason large sized trees are dug with a ball of dirt left with the roots and a burlap cloth sewed tightly about it.
